Re: **Ex Parte Submission**

***Modernizing the E-rate Program for Schools and Libraries -- WC Docket No. 13-184  
Schools and Libraries Universal Service Support Mechanism -- CC Docket No. 02-6***

Dear Ms. Dortch:

On July 17, 2020, representatives of Funds For Learning, LLC, met via video conference with FCC staff to discuss the results of a national survey of E-rate applicants that was conducted in June 2020.

We met with the following individuals from the Wireline Competition Bureau (WCB): Sue McNeil, WCB Special Counsel; Gabriella Gross, Telecommunications Access Policy Division (TAPD) Deputy Division Chief; James Bachtell, TAPD Assistant Division Chief; Stephanie Minnock, TAPD Assistant Division Chief; Katherine Dumouchel, TAPD Special Counsel; and WCB Attorney Advisors Mark Nadel, Molly O'Coner, Carol Pomponio, and Greg Vadas.

The Funds For Learning (FFL) representatives in attendance were Cathy Cruzan, President, and John Harrington, CEO. We shared the attached presentation "2020 E-rate Trends Analysis Based on National Survey of E-rate Applicants (2016 to 2020)."

We explained that the survey results are an accurate representation of the overall experience, thoughts and opinions of E-rate applicants nationwide. There were 2,138 survey respondents, which equates to a sample size of 9.9% of all FY2020 E-rate applicants. Responses were received from every type of applicant, and from every state and territory, representing both rural and urban zones, in similar proportion to the overall population of E-rate applicants.

We shared the following observations based on the survey responses, referencing the percentage of applicants who agreed with each statement.

### Measuring Success

- E-rate funding is vital to Internet access in schools and libraries (95%)
- Because of the E-rate program:
  - Schools and libraries have faster Internet connections (90%)
  - More students and library patrons are connected to the Internet (89%)
- Schools and libraries trust and depend on the E-rate program more than ever (89%)
- E-rate funding ensures sufficient access to broadband for schools and libraries (91%)
- The application process promotes cost-effective purchases (84%)
- The bidding requirements result in lower prices (72%)
- The application process is getting easier and faster (55%)

### Remote Off-campus Internet

- Regarding off-campus Internet access and remote learning during the COVID-19 pandemic:
  - Insufficient home Internet access is a significant issue in 90% of communities
  - 93% of schools and libraries would share their Internet access off-campus at no additional cost to the E-rate program if the FCC permitted it
  - 84% have received little or no emergency financial support for Remote Learning
  - 82% agree the E-rate program is the best solution to support Remote Learning
  - 74% agree that off-campus network security is a serious concern

### Eligible Services

- Most schools and libraries will increase their Internet bandwidth by at least 50% over the next three years, with an average annual increase of 17% reported by respondents
- 66% of applicants need dual Internet connections for reliable connectivity and would request it if the FCC allowed
- 28% of applicants report lower prices because of the option to purchase off-campus “self-provisioned” networks
- 98% of applicants describe Wi-Fi as extremely or very important
- 79% of applicants will upgrade their Wi-Fi within three years
- 51% of applicants strongly agree that they will apply for Category Two discounts in 2021
- The eligible services list should be updated to include: cybersecurity (98%); Dual Internet (88%); VoIP infrastructure (88%); Telephone service (75%); and school bus Wi-Fi (73%).

### USAC and the EPC Portal

- 83% of applicants are very or somewhat satisfied with USAC
- 30% of applicants believes USAC cares a great deal or a lot about them
- The EPC portal meets applicant needs extremely well or very well (56%)
- Overall, the EPC portal is easy to use (47%)

# 2020 E-rate Trends Analysis

Based on national survey of E-rate applicants (2016 to 2020)

June 17, 2020

Presented by Funds For Learning®

# Survey Summary

- E-rate program succeeding in its mission, offering:
  - Faster Internet access to more students and library patrons
  - Vital support for cost-effective solutions via a dependable program
- Insufficient off-campus Internet access is a significant, ubiquitous issue
  - Schools and libraries want to allow access to their E-rate funded networks
  - Applicants have not received much emergency support for remote learning
  - An E-rate type program is considered best approach to connect communities
- Applicants want cybersecurity, dual Internet, VoIP, and school bus Wi-Fi
- Most applicants satisfied with program administrator (USAC)
- Online application system (EPC) getting easier to use

# June 2020 Survey of E-rate Applicants

- 10<sup>th</sup> national survey of E-rate applicants
- Industry-wide effort with support from members of SECA and E-MPA
- 2,138 respondents (9.9% of applicants)
- Representative sample
  - Similar distribution of applicant types
  - Responses from all states and territories

# Measuring Success

How well is the E-rate program achieving desired outcomes?

*“Without the E-rate program we would not be able to provide internet access to our school. It's that simple.”*

*- Rural school district*

*“We want to thank both USAC and the FCC for their efforts in providing much needed financial support to schools as we seek to provide the best education possible to all students. Internet access and infrastructure would be an overwhelming burden without the support”*

*- Rural school district*

“E-rate funding  
is **vital** to our  
organization's Internet  
connectivity goals.”

-95% of schools and libraries

“We have  
faster internet  
connections to our  
site(s) because of  
the E-rate program.”

-90% of schools and libraries

*“I really appreciate the program, it has done so much for our school's connectivity. 7 year ago when I arrived here we only had 4 T1 lines for a total of 6 Mbps up and download for an entire district to operate on; this summer we are upgrading to 2.5 Gbps fiber. We struggled to do online testing with only about 2 grade levels when I got here and now we have almost no testing connectivity issues. The program has made a huge difference for us.”*

**-Rural School District**

“We **connect more** students and/or library patrons to the Internet because of the E-rate program.”

-89% of schools and libraries

“Our organization  
can **depend on** E-rate  
funding every year.”

-89% of schools and libraries

*“E-Rate provides us with substantial funding to cover the mission critical expense of providing high speed internet, which enables us to meet the needs of our community.”*

- Urban Library

# E-rate ensures access to sufficient broadband

- 91% of schools and libraries

E-rate promotes  
**cost-effective**  
purchases.

- 84% of schools and libraries

AGREE

E-rate bidding  
process results in  
lower prices.

- 72% of schools and libraries

*“It is important for schools that this program is reformed and expanded. It is critical to schools that this program is available to continue to provide support for the use of the internet and technology in our classrooms”*

- Rural School District

*“It would be devastating to our school without this program”*

-Rural School District

The process is getting  
**easier and faster.**

- 55% of schools and libraries

*“The application process has gotten better but still seems difficult and drawn out.”*

*-Rural School District (IA)*

*“The application process is horrendous! Extremely confusing, time consuming, and complicated. We have filed E-rate for years and it still took 8 people in the room this year to figure out the application!”*

*-Rural Library (IL)*

# Remote Learning and Off-Campus Internet Access

Insufficient home Internet access is a significant issue in our community.

- 90% of schools and libraries

*“Any help that USAC and the FCC can give us to get connectivity to our students in rural areas is GREATLY appreciated!!”*

**-Rural School District**

*“We need to share our connections with our students at home and the community that supports our schools. We are in an urban district where more than 20% of our students have no access at home.”*

**-Urban School District**

We would share our Internet access  
off-campus at no cost  
to the E-rate program  
if FCC rules allowed it.

- 93% of schools and libraries

*“Please. Help us support families at home. We appreciate you allowing us to share out our internet to nearby families. This is the first step we need to do more.”*

**-Urban School District (CA)**

*“I think the homework gap and extending network services out to students especially in rural areas is the key to moving more online.”*

**-Rural School District (OR)**

We have received  
**zero or only slight  
support** for remote  
learning from  
emergency funds.

- 84% of schools and libraries

"My organization has used emergency federal funding, such as the Emergency Stabilization Fund, for expenses necessary to support off-campus Internet access and/or remote learning."

# E-rate is Best Solution to Provide Remote Learning

- 82% of schools and libraries agree

# Off-campus network security a serious concern

- 74% of schools and libraries agree

# Eligible Services

# Need for increased bandwidth continues

Three-year forecast: majority will add 50% or more.

# 17% annual increase in Internet bandwidth

## Yearly growth rate based on survey responses

# 66% Applicants Need Dual Internet Connections but do not have because E-rate rules currently deny requests

# Option to consider applicant-owned network lowers prices

- 28% of schools and libraries

AGREE

“Option to purchase Self-Provisioned network (applicant owned) has lowered our overall price per megabit.”

# How important is Wi-Fi to fulfilling your organization's mission?

# When will you need to upgrade your current Wi-Fi network?

# My organization intends to apply for Category Two discounts next year, in funding year 2021.

# Which of the following services should qualify for E-rate support?

School bus Wi-Fi  
+15%

# USAC and the EPC Portal

# Overall, how satisfied or dissatisfied are you with USAC?

*“USAC is performing an ESSENTIAL SERVICE for schools and libraries. THANK YOU”*

*- Rural school district*

*“Without E-rate and USAC we simply would have no internet as we absolutely could not afford it and in the current state of this pandemic we could NOT have made it through or have been as effective as a school district as we were!!!! It is VITAL!”*

*- Rural school district*

## 30% believe USAC cares a great deal or a lot about them

*“The review process sometimes seems to have lost its way and has begun to think the goal is to nitpick technical issues with applications to deny funding. The goal is funding and the process is intended to look for abuse and stop at that. Funding schools should be the goal.”*

*- Urban public school district*

# Overall, how well does the EPC portal meet your needs?

*“EPC has been a life changer in terms of speeding up the application process and storing key documents for future audits and multi-year applications.”*

*-Urban School District (IL)*

*“The EPC web portal is needlessly complicated. Very difficult to put information in and get information out. This is not an intuitive set up at all.”*

*-Urban School District (CA)*

## CLOSING THOUGHT

*“The E-rate program has cut our costs for internet service and we are grateful for this. Internet is extremely important to us in an outlying area. Thank you.”*

*- Rural public school district (CA)*
